

Horticulture EH12

Type

Diploma

The Environmental Horticulture program is a sequence of courses that prepares students for careers in environmental horticulture. The program provides learning opportunities which introduce, develop, and reinforce academic and technical knowledge, skills, and attitudes required for job acquisition, retention, and advancement. Additionally, the program provides opportunities to retrain or upgrade present knowledge and skills.

* Students must select one of the following specializations:

- General Horticulture Specialization
- Landscape Management Specialization
