

# Mobile Electronics Technician ME61

## Type

Technical Certificate of Credit

The Mobile Electronics Technician Technical Certificate of Credit is designed to provide students with short term training to prepare them for entry level employment in the field of car audio systems installation. Topics include direct and alternating current principles, soldering techniques, and system installation procedures.

## Required Courses — 4.00 Hours

Item #	Name	Credits
<a href="#">ELCR 1005</a>	Soldering Technology	1
<a href="#">ELCR 1300</a>	Mobil Audio & Video Systems	3

## DC Course — 3.00 Hours

\* Select one of the following courses:

Item #	Name	Credits
<a href="#">IDFC 1011</a>	Direct Current I	3
<a href="#">IDSY 1101</a>	DC Circuit Analysis	3

## AC Course — 3.00 Hours

\* Select one of the following courses:

Item #	Name	Credits
<a href="#">ELTR 1020</a>	Alternating Current Fundamentals	3
<a href="#">IDFC 1012</a>	Alternating Current I	3
<a href="#">IDSY 1105</a>	AC Circuit Analysis	3
	Minimum Credit Hours for Graduation	10
